## **EXECUTIVE SUMMARY**

Mhurele IT Consulting was established in 2014. It is the arm of the parent company MHURELE HOLDINGS WHICH IS A B-BBEE LEVEL 3 CONTRIBUTOR. Mhurele IT Consulting was established to provide specialist ICT infrastructure solutions to the industry.

The company has realized that it can provide quality solutions for fiber optic connectivity, Network design, implementation and maintenance as well infrastructure environment using the skills and experience obtained from lectures and practical experience. Mr. Innocent Mhura who is the founder of the company has directly been involved in projects to ensure the standards required are delivered to the client's and service providers consistently.

As the arm of MHURELE HOLDINGS Mhurele IT Consulting we specialize in information and communications technology, technical support, System analysis and design, Networking Solutions, Desktop Support, Web-design, and Project Management.

Our main goal is to provide quality, timely, deliverable and user friendly ICT services to our clients. To enable us to cater for our valuable client's specific support needs, we offer different service options with the purchase of our service, whereby the client can choose the level of support and service required.

Mhurele IT Consulting strives to achieve success and a good IT reputation and recognition through the development of our people and our strategic partnerships.

Mhurele IT Consulting is centered on the need to bring IT infrastructure, services and skills and IT literacy to the rest of the world especially in SADC region. Our personnel are in touch with the latest technology trends, products and are on a concerted campaign to convince all the growing SMME's to embrace the culture of computing to make their business processes up to modern standards.
